

For Immediate release: 27 September 2004

**Plant Health Care plc**  
**Interim Results for the six months ended 30 June 2004**

Plant Health Care plc (“PHC” or “the Company”), a leading provider of natural products for plants and soil, announces its maiden interim results for the six months ended 30 June 2004.

The Company listed on the AIM market of the London Stock Exchange in July raising £5.4 million net of expenses.

**Highlights**

- Turnover increased by 8% to \$4.5 million (2003:\$4.2 million)
- Gross profit \$1.9 million (2003: \$2.0 million)
- Reclamation business first half revenues more than double that of the prior year
- Exclusive world wide license agreement with UK based Environmentally Conscious Solutions (ECS) to distribute entirely plant based organic plant food
  - Currently PHC’s fastest growing and highest margin product
- Expansion of sales and marketing team in the US and Europe
- ‘White-labeling’ deal with one of the world’s largest manufacturers of plant products to the retail market is in the final stages of completion and the Directors look forward to making an announcement soon.
- Acquisition VAMTech, Inc. is in the final stages of completion
  - VAMTech has a very powerful patented product that has broad applications across all of PHC’s product lines including those for the agriculture market

Commenting on the results, PHC Chairman, Albert Fischer said: “Following our admission to AIM, PHC, with its good track record of organic growth, is in a

strong position to develop additional product lines, achieve infill acquisitions of companies with complementary products and customers and to extend the success of our land reclamation business to other areas. We are now very near to completing a distribution agreement with one of the world's largest manufacturers of plant products and we look forward to updating shareholders shortly."
