

Harp-N-Tek™ 18-18-18

Usage Tip Sheet for Peanuts

PRODUCT OVERVIEW

Harp-N-Tek™ 18-18-18 is designed to be used as a foliar spray to supplement soil fertility programs and to promote healthier plants and crop production. An application should be made based on plant needs and production goals. Harp-N-Tek™ 18-18-18 used at bloom stage will help with nutrient uptake and fruit set.

PERFORMANCE SUMMARY

In replicated small plot trials conducted in 2005, Harp-N-Tek™ 18-18-18 increased peanut yields by an average of almost 180 lbs per acre.

PACKAGING AND FORMULATION

- All Purpose Plant Food 18-18-18 plus micronutrients.
- Available in a 25 lbs bag.
- Formulated as a dry, water soluble material.

USE RATE AND TIMING

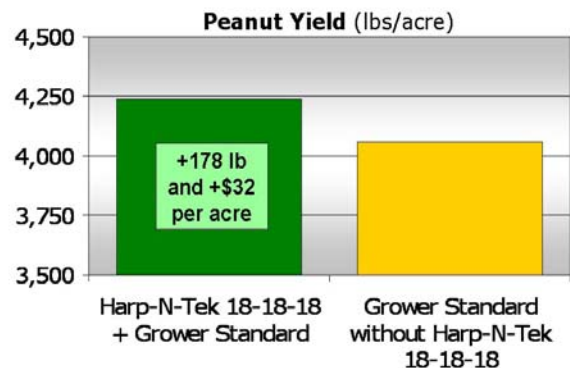

- In peanuts, apply Harp-N-Tek™ 18-18-18 at rate of 5 lbs. per acre.
- Apply at first flower or early bloom.
- Apply in enough water to ensure good crop coverage.

Caution: Keep out of reach of children and animals. This and similar fertilizers are harmful if swallowed and may cause skin irritation. Avoid breathing dust and contact with skin. Wash thoroughly and change to clean clothing after handling.

This product should be used in conjunction with good agronomic practices. Proper spray techniques and good coverage are necessary for best performance. Crop damage may occur if Harp-N-Tek™ 18-18-18 is applied when temperatures are too hot. Apply when temperatures and other environmental conditions are suitable based on your experience with foliar nutrients.

Harp-N-Tek™ 18-18-18 Increases Peanut Yield

Average Yield across Locations, 2005

Harp-N-Tek™ 18-18-18 applied 1st bloom at 5 lbs/A; replicated trial locations in GA, NC, and TX; value calculated at \$0.18/lb or \$360/ton.

MIXING and COMPATABILITY:

- Fill sprayer at least half full with water and start agitation before adding Harp-N-Tek™ 18-18-18.
- Allow extra time to dissolve in tanks without agitation or when very cold water is used.
- This product is compatible with most pesticides used on vegetable, fruit, berry, tobacco, tree, vine and row crops.

Always read and follow label instructions before using this product.
